## **The Cities of Liberty and KCMO along with the Missouri Department of Transportation Set to Celebrate the Completion of the New Route 152 Bridge over I-35 in Clay County**

LEE'S SUMMIT – The Missouri Department of Transportation, the Cities of Liberty and Kansas City will host a ribbon cutting ceremony to help celebrate the completion of the new Route 152 Bridge over I-35.

The ceremony will take place Monday, August 26 at 11 a.m. on the brand new bridge. Attendees are asked to park in the parking lot of the TownePlace Suites (Marriott Hotel) on the southeast corner of Kansas St. (Route 152) and I-35.

Back in March of 2019, crews for the Missouri Department of Transportation began building two companion bridges with eight lanes in one and three lanes in the other. Part of the new bridge system will have a new Diverging Diamond configuration.

The overall project will replace the Route 152 Bridge over I-35; make improvements to Kansas Street and Route 291, and add wider driving lanes and additional turn lanes. The project will also address bicycle and pedestrian needs along the corridor with sidewalks and multiple-use paths.
