LIBERTY HISTORIC DISTRICT REVIEW COMMISSION
Meeting Summary
March 16, 2021
Zoom Video Conference

Present via Video Conference: Matt Grundy, John Carr, Vern Drottz, Martha Reppert and Doug Wilson

Absent: Clay Lozier, Mike Gilmore, Dail Hobbs, Brett Rinker

Applicants Present via Zoom: Jason Booth, owner of 526 W. Kansas

Staff Present: Jeanine Thill Community Development Manager and Mike Peterman, Planning & Development Mgr./Zoom Moderator

Chairman Grundy called the meeting to order at 4:11 p.m.

A motion was made by Commissioner Wilson to approve the February 2, 2021 HDRC regular meeting summary as amended and the February 26, 2021 Design Sub-Committee meeting summary as amended. The motion was seconded by Vice Chairman Carr. The motion passed 6-0-0.

HDRC Case #21-003D Consideration of a Certificate of Appropriateness for exterior alterations at 526 W Kansas, Dougherty Historic District.

Ms. Thill presented the staff report explaining that the applicant is proposing to replace the existing siding with cement board siding. Vice Chairman Carr asked how he is addressing the outside corners of the house, commenting that the existing corner pieces are metal. He asked for clarification if the corners will match the siding or the existing metal corner pieces. Mr. Booth said that they are planning to use a fiber cement corner piece. It will be a continuous piece of vertical trim. Vice Chairman Carr said that he is not comfortable with that because it is a change from the original architectural detail of the home. He also added that the casing on the home should be flat. It is not brick mould. Vice Chairman Carr asked if they are going to duplicate the existing casings. Mr. Booth said they would go back with a flat casing. Vice Chairman Carr also added that the brick mould between the two windows should be a flat piece. Commissioner Wilson asked for clarification on the material of the corner pieces on the home. Mr. Booth said that right now each corner has a metal piece that overlays on both sides and he is planning to replace it all with James Hardie Cement Board siding. He said James Hardie doesn't have a corner piece, that it is all a solid piece. Vice Chairman Carr asked if the vertical piece was rabbeted to hide the end of the siding. Mr. Booth responded that it is a solid piece and caulk is applied to the transition. Vice Chairman Carr said that metal corner pieces can be found at lumber stores. A reasonable replacement for the corner pieces would be new metal corner pieces or to salvage the existing and re-use them to maintain the current architectural detail of the home. Vice Chairman Carr added that the depth of the corner piece is 3/8" and for the James Hardie it is 5/16" so it is easily adaptable. Mr. Booth said he can see if James Hardie has a corner metal piece. He will check with Teague and McCray Lumber. Vice Chairman Carr commented that the metal outside corner is a finish piece and he knows it is available. The old corner pieces can be re-used but it may be more cost effective to buy new. Commissioner Drottz asked if you nail into them. Vice Chairman Carr said it would be wise to check with the manufacturer on what is acceptable.

Chairman Grundy commented that there isn't a lot of architectural distinction on the house and it is important to keep the details in tact such as the corner pieces and the dog ear boards and vent on the west elevation.

Commissioner Wilson said he agrees that not using the metal corner pieces would change the look. If we can match the existing we should try. Commissioners Drottz and Wilson agree that the existing siding is in bad condition and they are happy that the applicant is upgrading.

A motion was made by Vice Chairman Carr to approve the application with the stipulations that the outside corners have metal corner pieces and that the dog ear boards and vent on the west elevation match the existing. The motion was seconded by Commissioner Wilson. The motion passed 6-0-0.

Other Business

Update - Nuisance Homes- Ms. Thill said she does not have a written report at this time.

Administrative Approvals since the February 2, 2021 meeting:

408 W. Kansas Arbor and Trellis

Miscellaneous matters from the Commission:

Commissioner Drottz asked if anyone has complained about the "prison-like flood lights" on Heritage Middle School, commenting that they are very bright. Commissioner Wilson said that he had the same concern. Most jurisdictions have requirements related to the throw of the lights. Chairman Grundy said that Staff might give the school a call. Staff will follow up.

Commissioner Drottz asked what the status is of the damaged sculpture at Prairie and Kansas. Ms. Thill said that it was removed last week and the artist is supposed to replace it with a metal version but the artist is in the hospital with Covid. It is unknown when a replacement will be delivered.

Miscellaneous matters from Staff:

The Preservation Plan will be considered for adoption at the March 22, 2021 City Council meeting.

Other Business: None

The meeting adjourned at 4:47 pm.

**HISTORIC DISTRICT REVIEW COMMISSION
Design Sub Committee Meeting Summaries**

(Immediately Following the 4:00 HDRC Zoom meeting)

March 16, 2021

On Site at:

Approx. 4:50 PM at 110 E. Kansas

Approx. 5:10 PM at 415 Wilson

**I. 110 E. Kansas Present: John Carr, Vern Drottz and Martha Reppert Staff:
Jeanine Thill**

HDRC Case #21-003LS Preliminary Discussion of a patio covering at 110 E. Kansas, Liberty Square Historic District- Mr. Atwell (Jousting Pigs) was not available for the meeting however Mr. Kennebeck (3 Halves Brewing) said that he can share a little bit about the patio cover that they are considering. They would like to add a covered structure over the patio that would allow for additional outdoor seating on the ground floor and on the roof top. Vice Chairman Carr said that the previous owners submitted a similar proposal several years ago. Mr. Kennebeck said they do not have drawings at this time but would like some guidance on the appropriate materials. Ms. Thill said the design guidelines require compatible materials and suggested considering materials similar to the existing structure. She explained that they would need to submit drawings and a Certificate of Appropriateness application. If they want to reschedule another Design Sub-Committee meeting at a time that Mr. Atwell is available, they can make that request to Staff.

**II. 415 Wilson Present: John Carr, Vern Drottz and Martha Reppert.
Representing the applicant was Aimee Gray, A3G Architects. Staff: Jeanine Thill**

HDRC Case #21-001J Amended Consideration of a Certificate of Appropriateness for raising the railing height on the rear deck at 415 Wilson, Jewell Historic District- Commissioner Drottz and Vice Chairman Carr measured the rail height at different points and discovered the height varies considerably ranging from 2 ¼" shy on the north side of the deck to 2 ¾" shy on the south side. To avoid ripping out the existing rail, Commissioner Drottz recommended adding a block on top of the rail that tapers up. Ms. Gray asked about their suggestions on the screening. Vice Chairman Carr and Commissioner Drottz both suggested putting the screen on the inside, adding that there are frame systems available. He suggested contacting Columbia Glass or Jetalum. Ms. Gray said she will draw up the plans and will submit an application to HDRC for consideration.

III. The Design Sub-Committee adjourned at approximately 5:30 p.m.

Historic District Review Commission

The City of

HDRC Case No. 21-001J (amendment to 19-004J)

Staff: Jeanine Thill, Community Development Manager

HDRC Meeting Date: February 2, 2021

GENERAL INFORMATION

Application: Certificate of Appropriateness for a rail topper on back deck railing to meet code height requirement

Applicant: Trevis and Erin Martin

Location: 415 Wilson

District: Jewell Historic District

NRHP Status/category: Contributing

File Date: March 24, 2021

SPECIFIC INFORMATION

SITE HISTORY

The complex silhouette of this vernacular structure is related to the Victorian Queen Anne style. Wraparound porch and gabled portico are composed of stone piers and classically inspired posts and a wooden rail. Roof gable ends have scalloped wood lap. Fenestration is double-hung 1/1 sash type with wide window surrounds. Decorative, multi-paned stained glass window to the east of the main entrance. Attic window was replaced with a small standard 6/6. There is a brick chimney on the rear slope. According to the HDRC files; in 2005, repair/alteration work was completed on the windows, siding and roof. In 2007 there was a recorded lot split.

PROPOSAL DESCRIPTION

The applicant proposes to add a wood topper rail to the existing 34" rail increasing it to measure 36" to meet code. Three members of the design subcommittee met with the architect and gave guidance on the design. See drawing.

ANALYSIS

Unified Development Ordinance ("UDO") - The Unified Development Ordinance outlines design principles that have been adopted for all historic districts and landmarks in the City of Liberty.

Design Guidelines ("DG") - Design Guidelines were established to give the HDRC general guidance in making subjective preservation choices in accordance with accepted best practices and the Secretary of the Interior standards for historic preservation.

DG: Sec. 30-72. District HP, design principles.

2. Alterations: Alterations shall restore a structure's original elements, materials, and appearance, if economically or physically feasible. Alterations affecting the exterior of a structure shall preserve all significant original exterior elements, including building materials, doors, windows, and decorative elements. Elements that are not original, but which may have acquired significance by virtue of age or craftsmanship, shall also be preserved.

Staff Analysis

The proposed alterations will raise the existing rail height to meet code and is appropriate.

PREVIOUS CASES / ADDITIONAL INFORMATION

19-004J Previously Approved: Construct a new wood, covered and screened deck on the rear (south) of the residence. Install a solar array on the existing residence and new structure. No new construction will be visible from the front (north) elevation.

Deck: 17'- 3.5" X 16' - 0". New 2X6 wood decking, 6" wood columns, 2X2 square spindles with 4" X 2.5" hand rail and 2X2 bottom rail. Decorative 1"thick X 18" wide X12" high wood brackets with screened enclosure. The deck roof is proposed be a standing seam metal roof. Pre-finished sheet metal gutter and downspouts. New wood lattice below the deck with a gate. Replace existing window opening on south elevation with new 32" wide wood, half lite door to lead to the deck on south side. (door not selected at time of application)

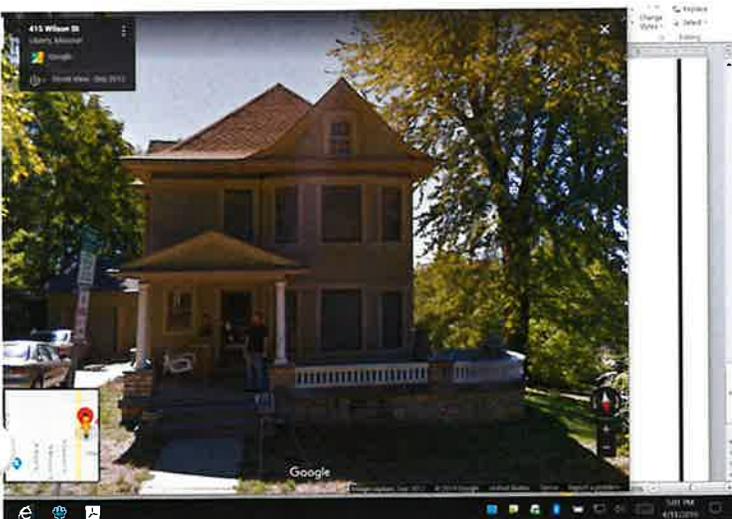

Solar Array Panels: New solar array 39"X65" panels proposed on the garage, the new deck addition and on both the west and east side roof.

TAFF RECOMMENDATION

The application meets the standards for review and the historic district design guidelines therefore staff recommends approval of HDRC case #21-001J Amended.

Historic District Review Commission

The City of

HDRC Case No. 21-005J

Staff: Jeanine Thill, Community Development Manager

HDRC Meeting Date: April 6, 2021

GENERAL INFORMATION

Application: Certificate of Appropriateness for improvements
 Applicant: Decker Service Professionals for Rebecca Myer
 Location: 400 E. Kansas St.
 District: Jewell Historic District
 NRHP Status/category: Contributing
 File Date: March 31, 2021

SPECIFIC INFORMATION

SITE HISTORY

Built in 1911, there are minimal decorative embellishments on this folk house including two single stack paneled brick chimneys; single story tripartite bay on principal South façade and a second bay on the West front; and porch handrail made of cross timbers in an “x” design. Characteristically the rear single story has been extended. The 1800’s historic fence in the front yard is historically significant as it was original to the first Clay County Courthouse. After the Courthouse burned the fence was then moved to this home.

PROPOSAL DESCRIPTION

Replace West porch floor with similar 1X4 tongue and groove flooring.
 Install 1x3 pet screen panels on interior of same porch, they will fit behind the existing rail.
 Repair 2x2’s on rail of South (entry porch) and replace broken 1x4 floor board

ANALYSIS

Unified Development Ordinance (“UDO”) - The Unified Development Ordinance outlines design principles that have been adopted for all historic districts and landmarks in the City of Liberty.

Design Guidelines (“DG”) - Design Guidelines were established to give the HDRC general guidance in making subjective preservation choices in accordance with accepted best practices and the Secretary of the Interior standards for historic preservation.

original elements, materials, and appearance, if economically or physically feasible. Alterations affecting the exterior of a structure shall preserve all significant original exterior elements, including building materials, doors, windows, and decorative elements. Elements that are not original, but which may have acquired significance by virtue of age or craftsmanship, shall also be preserved.

the porch floor and rail is appropriate. The pet screen on the West porch (visible from the front) is not architecturally harmonious with the home. On page 29 of the design guidelines it states "do not enclose or screen a front porch".

PREVIOUS CASES / ADDITIONAL INFORMATION

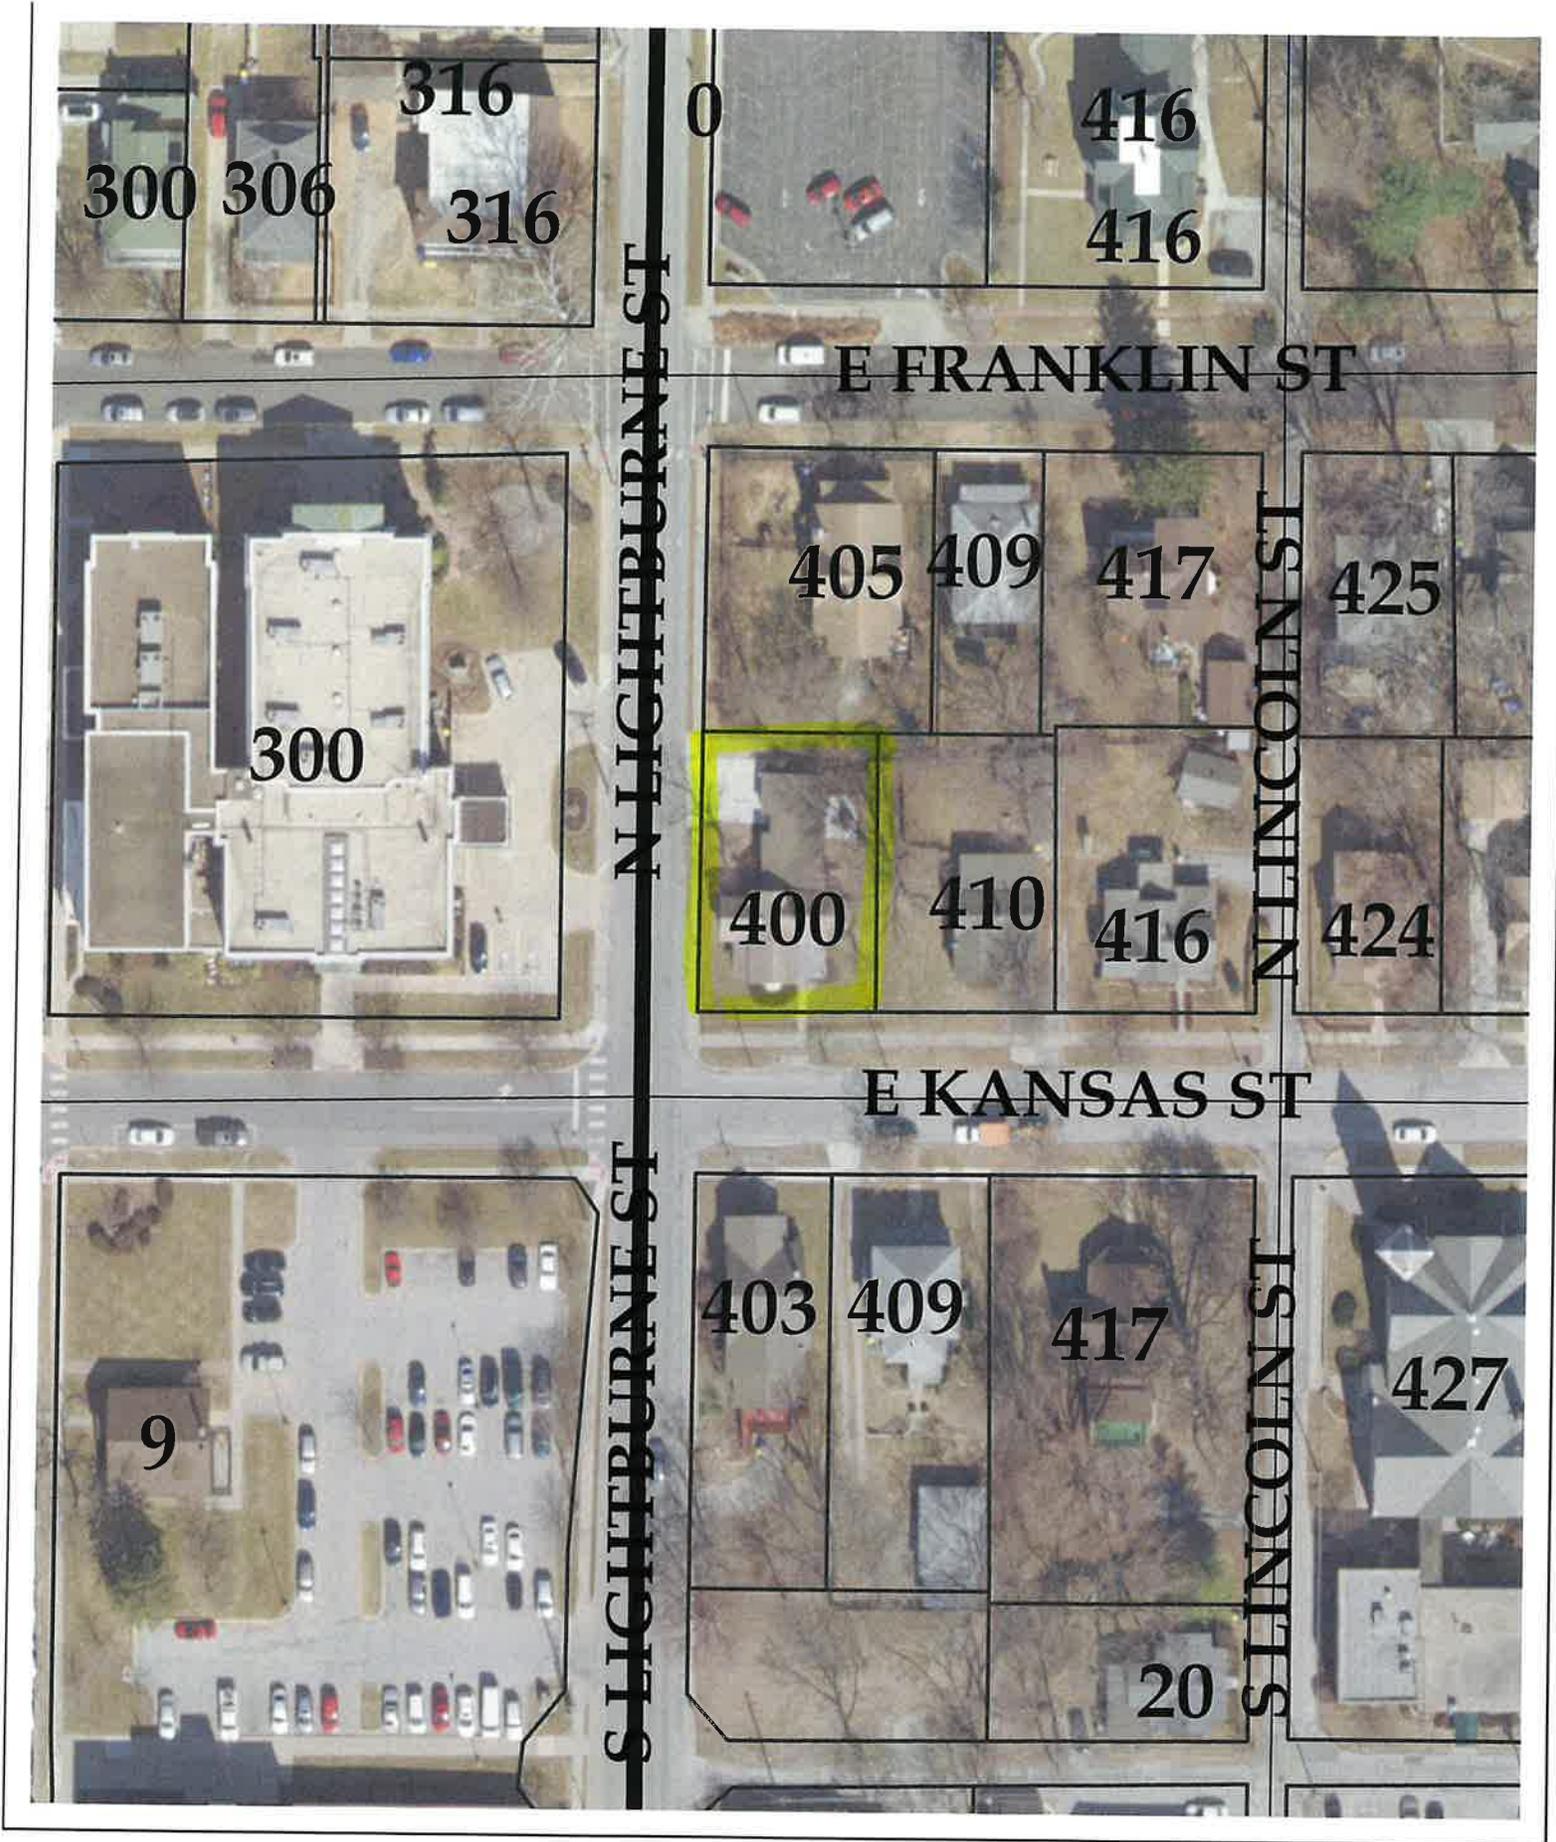

STAFF RECOMMENDATION

With the stipulation that the pet screens are not placed on the west porch, the application meets the standards for review or the Historic District Guidelines therefore staff recommends approval of HDRC case #21-005J
